

# Electric-field Strength Detector

**Type: VK-TD-287**

## Technical details:

Type:	VK-TD-287
Current:	6,6-22,8 kV AC
Nominal frequency:	50/60 Hz
Signals:	Light and Sound
Operating temperature, humidity:	0-40 °C, max. 80 % R.H.
Size:	61*62*18,5 mm
Weight:	70 g
Power:	CR2032 button cell battery
Battery lifetime:	50 hrs continuous mode
Accessories:	-User's manual -2 x elastic strap -Battery -3 x hooks -strap-key -2 x connector rings

### Field of use:

The Electric-field Strength Detector protect people working near electrical networks. The instrument gives warning signals to the user when is in dangerous proximity to any voltage. The signals of the device warns the user in case of further approach when the worker may be injured or suffer an electric shock accident.
