VKP-10M voltage detector

Product description:

Type mark:
VKP-10M
Nominal voltage range:
3-11 kV
Maximum voltage:
12 kV
Threshold voltage:
1.1 kV ≤ Uk ≤ 1.35 kV
Nominal frequency:
50 Hz
Outdoor design: For wet conditions, designed for indoor or outdoor use Voltage detector.
Category L: The contact is without electrode
Voltage detector.
Climate class:
N (-25 to +55Co)
Applicable standard:
MSZ EN 61243-1:2005
Supply voltage:
6 V (2x CR 2032)
Operating current consumption:
35 mA
Quiescent current recording:
0mA
Indications:
Light and sound
Display group:
III ("voltage present" state indication, which has standby status)
The insulated operating rod of the voltage detector:
VK-TR-C-2000
